

Name: Abbas Anwar Ezzat

Title: Petrochemical Lecturer

Tel:3877457

Email:abbas.ezzat@pua.edu.eg

Room:233

Biography

Dr. Abbas is currently a professor of Petrochemicals in Pharos University, Alexandria, Egypt. Prior to his teaching job, Dr. Abbas has held several top management positions in Trust Group, Egyptian Petrochemicals Holding Company, Egyptian Petrochem co., Sipec Petrochemicals co. and ASPC Petroleum Products Co., to name a few.

DR. Abbas holds B.Sc. of Science And M.Sc. Of science from Alexandria University, Egypt. He completed his post graduate studies in Petroleum Processing from the school of chemical engineering in Oklahoma State University. Dr. Abbas completed his Ph.D. of Science in Petrochemical Applications in Alexandria University. On top of that, he also completed his M.Sc. in Chemical Engineering from Washington International University.

Dr. Abbas participated in some training programmes, among them are: AID training program in Petroleum Processing, USA and JICA program in Petrochemical Industries in Japan.

Dr. Abbas managed major Refinery/Petrochemical projects in Egypt, namely Lube Oil, PVC Complex, Ethylene/Polyethylene project & Speciality petroleum products.

In the field of research works, Dr. Abbas has published some papers and studies in the fields of operation management, Reliability concepts, Quality management & Environmental management. Also, Dr. Abbas has participated in quite a few international conferences & Licensees meetings as a key note speaker, among them are World Refining Association, OAPEC, EGPC International, B.F. Goodrich, C.E. Lummus, British Petroleum, Colas & Marcusevants.

Research
work

Research Work Activities:

- 1- Passivation of Ethylene Cracker Heat Exchangers, Petroleum Technology Quarterly , PTQ 3, 2009.
- 2- Challenges in Petrochemicals Industries, E-JUST Symposium., Alexandria, Nov. 2008.
- 3- Normal and Emergency shutdown practices in Egyptian petrochemical industries 4th annual world class shutdown and turnaround, Bangkok, June 2006.
- 4- Devising an Integrated Material Management Philosophy in Industrial plants, 2nd annual shutdown and turnarounds, Dubai, Feb. 2006.
- 5- Bridging the Productivity gap between NAME and best performing Industrial Organizations. World class shutdowns & Turnarounds, Kuala Lumpur, Sept. 2005.
- 6- Applied reliability concepts in Egyptian Petrochemical Industries, 2nd International turnaround conference, Kuala Lumpur, Jan. 2005.
- 7- Optimization of Polyvinyl Chloride output at Egyptian Petrochemicals, 2nd Oil Refinery and Petrochemicals in the Middle east, Dubai, Nov., 2000.
- 8- Ethylene Technology, the keystone to Petrochemical Industries, Oil Refining and Petrochemicals in the Middle East, WRA, Jan. 2002.
- 9- Hot Start-up in Vinyl Chloride Monomer Polymerization and its consequences for the initiator selection , Egyptian Oil Refinery Conference 99, Alex, 1999.
- 10- Applied Environmental control strategies at Egyptian Petrochemicals, World Refining Association, Abu Dhabi, Oct., 1999.
- 11- Environmental Control in PVC production units, OAPEC safety and Environmental Protection in the oil and Petrochemical industries in the Arab Countries, Cairo, Oct., 1998.
- 12- Effects of VCM impurities on OAPEC seminar on Refining industry in Arab Countries and the challenges of the 21st Century, Cairo, Oct., 1996.
- 13- Influence of Fast Neutrons on Thermo-physical properties of pure and Borated Low Density Polyethylene, Polymer Mat. July, 1990.
- 14- The Impact of radiation cross-linking reactions on the mechanical thermo-mechanical and electrical conductivity properties of polyethylene materials, the second Arab International Conference on material science, Alex., March 1990.
