Microbiology I (PHR 251)

Project Announcement

Each group will have to handle a preliminary copy of the brochure (including references) in the 5th week starting from Sunday 23/10/206.

Then, after reviewing the brochure in the 5th week, each student will take brochures and will have to interview 2 patients and 4 normal using a questionnaire that will be uploaded.

By the 6th week, starting from Sunday 30/10/2016, each group will have to deliver a CD containing the following:

1- PowerPoint presentation about the group’s work including the results of the questionnaires presented in tables and graphs
2- Statistical analysis of the results using SPSS program (data obtained from patients interview & Normal population interview should be analyzed separately)
3- The questionnaires
4- The final copy of the brochure

Note: the project PowerPoint that was explained & the questionnaire blank will be uploaded in the Microbiology I subject area.

Good Luck
