3. Mohamed Mahmoud Moharam
4. Dina Naser Mahmoud

### **Project Summary:**

This research is applied on the Street Children in Smouha Area showing the phenomena which negatively affect our community. We will review the Previous Statistics of these Phenomena, the main factors that causes it and their effects. In addition, We Used Some Instruments to gather and improve this data by collecting Samples from the studied area. Finally, we generated some recommendations and Contributions about these Phenomena and it turned out that the main reasons for this problem are illegal relations, family instability, loss, bad economic condition.
