Pharos University in Alexandria

Faculty of Financial and Administrative Sciences

Strategic Objectives of the Quality Assurance Unit

The Quality Assurance Unit of the College aims to achieve the following objectives:

1. Preparing the college to meet the requirements and standards of the National Authority for Quality Assurance, Accreditation and College Qualification for accreditation.

2. To disseminate continuous awareness of the culture of quality and performance evaluation among the faculty community, faculty members and assistants, members of the administrative staff and staff, as well as the student community and graduates, through the preparation of seminars and workshops to achieve excellence in performance and support the completion of tasks.

3. Improving the quality and quality of the academic programs offered by the college, which is reflected at the level of graduates and their competitiveness.

4. Building and improving the institutional and human capacities of the college and qualifying it for excellence through specialized training programs to raise the efficiency of individuals.

5. Setting up systems and standards for internal follow-up and evaluation of performance in all academic, research, service and administrative activities within the college in order to achieve the goals of the college and improve its outputs.

6. Presenting various suggestions and recommendations related to the implementation of the quality system in the college and follow up these procedures periodically and adjust them in line with the developments and developments related to the educational system as a whole, in order to achieve the objectives of the quality unit and improve performance at the university and its administrative and academic levels.

7. Enhancing the system of research activities by adopting an integrated research plan that ensures cooperation between different departments and contribute to solving societal problems on scientific bases and putting the university in the global order.

8. Raise the level of community participation of the college by ensuring the provision of quality and qualitative services to win the satisfaction and trust of the beneficiaries.

9. Work to gain the confidence of the local, regional and international community in the outputs of the educational process and on the efficiency and quality assurance of education and its continuous development, and constructive cooperation regionally and internationally with similar units and bodies.
