Project Results

System thinking in terms of the 4 main components of sustainable development; economy, nature, society and wellbeing were used to illustrate the sustainability components in the curricula as a show case of each faculty. However, the detailed analysis and quantification of the current situation is implemented using the USAT.

 The results of such analysis in each faculty are represented below for each faculty, arranged by alphabetical order. The general trend of presenting the results in all faculties takes the following sequence:

1. Assessing the Status Quo
    a) Review of curricula for selection of relevant courses for evaluating the components of sustainable development
    b) Evaluation of components of sustainable development in courses using USAT tool
    c) Analysis of the results in terms of Education – Research – Activities and Practices.
    d) Calculating percentage of current situation as indicators

2. Proposed plan of action using sustainable development goals as indicators for improvement of the current situation.

3. Expected results foreseen.
    a) Expected results foreseen in 2020-2022 Education – Research – Activities and Practices
    b) An Overview of the results foreseen
    c) Calculating percentage of the expected result

4. Examples of Practices
5. Comparisons and final recommendations
