

17.1. Memoranda of Understanding (MOUs)

The SDGs can only be realized with strong global partnerships and cooperation. Since its start Pharos University is keen to enhance the partnership nationally, regionally and internationally, thus and become more active for contributing to achieving of the Sustainable Development Goals. Several Memoranda of understanding (MONs) has been established (Table below). This has been complemented by multi-stakeholder partnerships that mobilize and share knowledge, expertise, technology in medical, humanities and STEM sectors, to support the achievement of the Sustainable Development Goals locally in the university, and contributing to EGYPT strategy 2030.

The table below (Table 26) shows such partnerships in all types of activities including research, joint projects, joint programs, students' activities and conferences. Also, there has been programmed exchange of visits for staff and students (mobilities) under several EU projects that contribute to all the above activities.
