

Pharmacology II (PL310)

We hope that all of you are safe.

We would like to inform you that LMS will be no longer used and we will use from now on Google classrooms instead of it.

So kindly each one should check his/her PUA email (or Gmail) to know our subject classroom code and join it.

You will find all previous weeks' material, this week material and explanation.

All students should listen to explanation instead of attending for this week and next week (or it may be a longer situation) and follow the announcements on our subject classroom.

Please stay safe at home for these two weeks.

Thank you
