

## Publications Template

#	Research Title	Field	Abstract	Year of Publication Publishing	Publishing Link "URL"
1	The Effects of Truck Axle Loads and Tire Pressure on the Responses of Flexible Pavement	Highway Engineering		2022	
2	Behavior of Square RC Short Columns with New Arrangement of Ties Subjected to Axial Load: Experimental and Numerical Studies	RC structures		2022	<a href="https://doi.org/10.3311/PPci.19369">https://doi.org/10.3311/PPci.19369</a>
3	Behavior of RC Columns with Different Internal Tie Configurations	RC structures		2019	
4	Strengthening of R.C. beams subjected to shear and torsion using CFRP	RC structures		2017
