- Esraa Sameer Fathy
- Riham Sherif Kamel
- Mahmoud El Shawdfy
- Naglaa Mohamed Youssef

Under Supervision of:

Prof. Ramadan Abd El-Maksoud

Academic Supervisor of
Architectural Department

❖ Project Summary:

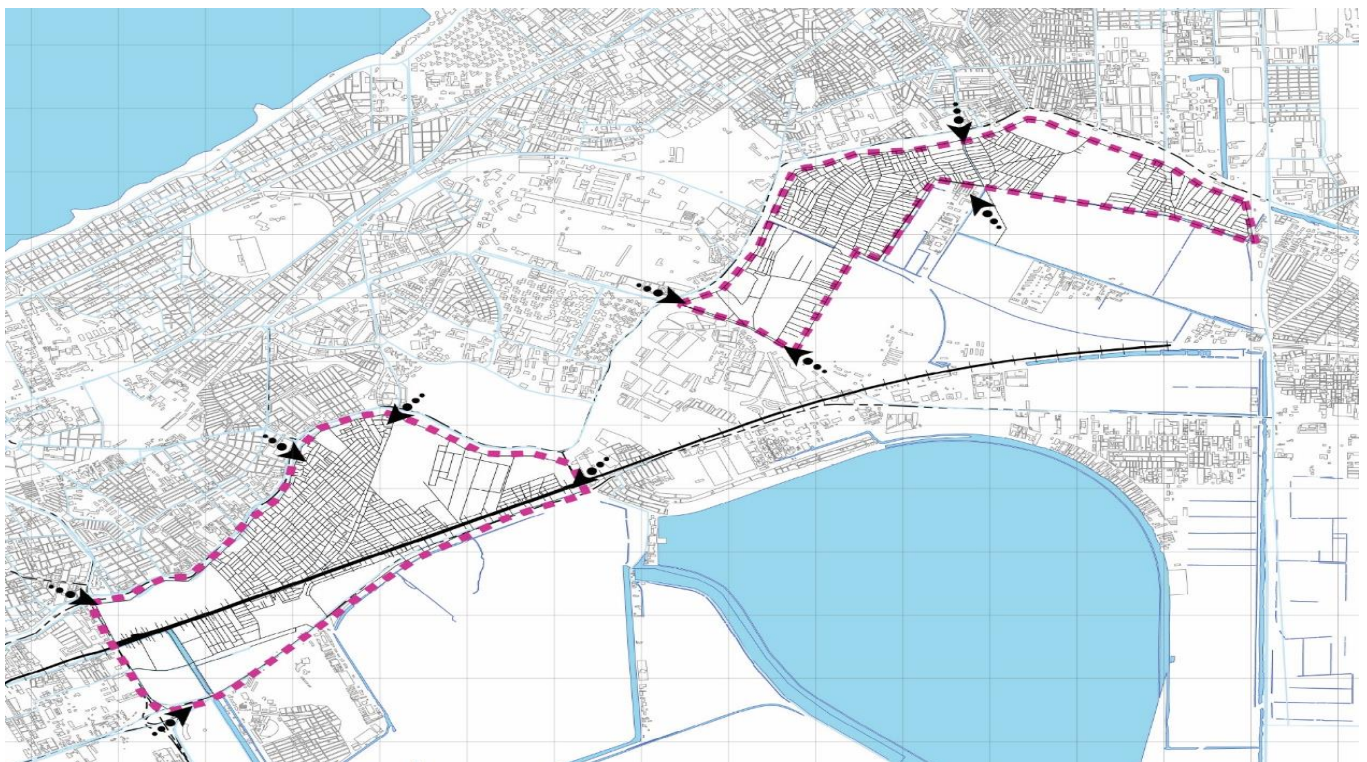

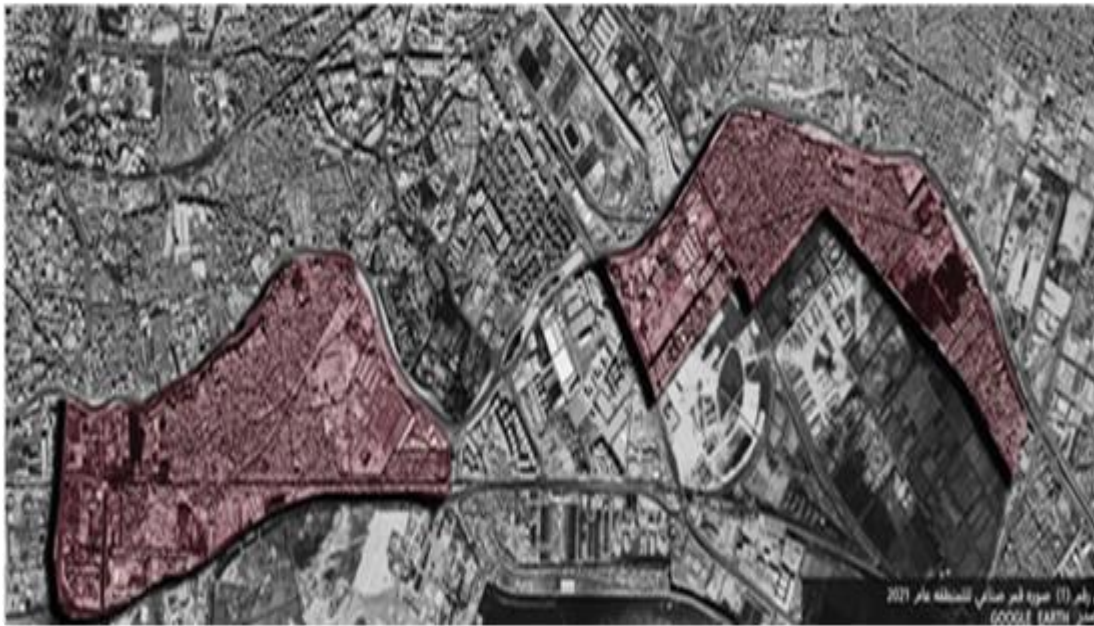

Project Idea:

Regarding the cooperation through technical and academic support for the urban planning and development system to improve the environment and achieve sustainable development goals and within the framework of fruitful cooperation between Pharos University and the Governorate of Alexandria to activate its pioneering role in the Alexandrian society, detailed plans were prepared for the two areas

Zone 1 (Gnayouti - Al-Qalaa - Hijazi)

Zone 2 (Al-Hadra Al-Jadida - Subhiya - Al-Rahma - Al-Darisa).

Zone 1 (Gnayouti - Al-Qalaa - Hijazi)

The Department of Architectural Engineering, which is in charge of implementing the plan assigned to it, executed and prepared a detailed report for the two areas and the future vision for them and presented the outputs of the proposed master plan suggesting a proposal for the development of these two areas through several development axes based on the future vision represented by a number of projects in the development of residential areas and lands, in a report containing 85 pages, in addition to 25 geographic information systems (GIS) maps.
