# Evaluation of The Performance of Natural Antioxidants in Enhancing Biodiesel Storage Stability

*A thesis submitted in partial fulfilment of the requirement for the degree of  
Master of Science*

In

## Petrochemical engineering

Submitted by

**Donia Ehab Khairy Mohamed Mostafa**

**B. Sc. in Chemical Engineering, Faculty of Engineering, Alexandria  
University, 2019**

2025

## ACKNOWLEDGMENT

At first, I want to thank God for giving me will power, patience and perseverance to make my dream come true.

Also, I would not be able to get my work done without the support and vision of my supervisors.

**Prof. Dr. Taghreed Mohamed Zewail**

**Prof. Dr. Abbas Anwar**

**Dr. Aya Soliman**

For their continuous guidance and support, and without their supervision, this thesis could not have achieved its present form.

I am deeply grateful to my family, thank you for encouraging me in all my pursuits and inspiring me to follow my dreams. I am especially grateful to my parents, who supported me emotionally and financially. I always knew that you believed in me and wanted the best for me.
