

Faculty of Pharmacy

Pharos University in Alexandria

Program Specification

Bachelor's Degree in Pharmacy

(Pharm-D clinical)

2025

14\9\2025 اعتماد مجلس كلية

University: Pharos University in Alexandria.
Faculty: Faculty of Pharmacy

Program Specification (2025)

1. Basic Information

ProgramTitle	Bachelor's Degree in Pharmacy (Pharm-D clinical)
Total number of credit hours/points of the program:	177 Crs + 6 university requirements = 183 credit hours Total
Number of academic years/levels (expected program duration):	Five years + 1 academic year (9 months) internship
Department (s) Participating (if any) in teaching the program:	Department of Pharmaceutical Chemistry (PC). Department of Pharmacognosy & Natural Products (PG). Department of Pharmacology and Therapeutics (PL). Department of Microbiology and Immunology (PM). Department of Clinical Pharmacy & Pharmacy Practice (PN). Department of Pharmaceutics & Pharmaceutical Technology (PP). English Language center Arabic Language center Computer center Communication center Career development and entrepreneurship center
Faculty/Institute:	Pharmacy
University/Academy:	Pharos University in Alexandria
Program majors/divisions/tracks/specialties in the final year (if any):	Not applicable
Partnerships with other parties and the nature of each (if any):	Not applicable
Name of the program coordinator (attach the assignment decision):	Associate Professor. Noha Elsalamoni
Program Specification Approval Date:	9\9\2025
Council responsible for Program Specification Approval (Attach the Decision / Minutes):	14\9\2025

2. Program Aims (Brief description of the overall purpose the program)

The principal aim of the Pharm-D clinical program in the faculty of Pharmacy Pharos University in Alexandria, is to graduate distinguished pharmacists specifically trained to provide optimal healthcare within and outside hospital settings. This is achieved by monitoring medication regimens, applying clinical pharmacokinetic principles to tailor therapeutic systems, and collaborating closely with physicians to enhance patient care while minimizing drug risks and interactions. Furthermore, our graduates are fully qualified for diverse roles in public and private pharmacies, pharmaceutical manufacturing, drug control and food analysis laboratories, as well as in marketing, research, and academia. By adhering to rigorous quality standards through interactive and self-directed learning, the program enhances the regional competitiveness of its graduates and contributes to community development, delivering a tangible economic impact through the rationalized and efficient use of medications in hospitals.

3. Program Structure (Curriculum)

Program Components

Requirement Category/Type		Number of Courses	Number of Credit Hours/Points	Percentage from the total number of hours/points
University Requirements		3	6	3.3%
Faculty/College Requirements (if applicable)		76	177	96.7%
Program Requirements	Total courses	79	183	100%
	Compulsory Courses	75	175	95.6%
	Elective Courses	4	8	4.4%
Requirements of the majors/ divisions/ tracks/ specializations in the final year		NA		
Other requirements	Field Training		100	
	Graduation Project	Graduate projects are included within the mandatory training year and considered as 1 round from the 6 rounds provided during the 9 months.		
	Mandatory training year		9 month\ 6 rounds	
	Other (to be mentioned)		NA	
Total Compulsory Courses		75	175	95.6%
Elective Courses		4	8	4.4%
Total		79	183	100%

Categories	Number of courses	Credit Hours	Percentage
Basic	9	18	10%
Pharmaceutical	25	66	36%
Medical	13	35	19%
Pharmacy practice	15	38	20.8%
Health and environmental	6	10	5.5%
Behavioral and social	4	4	2.2%
Pharmacy management	2	3	1.6%
Discretionary	5	9	4.9 %

• Program courses according to the expected study plan

4. Academic Standards

- **Adopted Academic Standards (NARS/ARS): NARS**

- The Faculty adopts the Academic Standards of the National Authority for Quality Assurance and Accreditation of Education (NAQAAE), Competency-Based NARS 2017, in a faculty council on 21\9\2020
- Competency-Based NARS 2017 was previously discussed and adopted in all departments' councils.
- **Date of Adoption of Standards in the governing Council:** Click or tap to enter a date. 21\9\2020. * **Decision/Minutes of the governing Council to be attached**

National Academic Reference Standards (NARS) 2017:

By completion of the program, students should achieve the following 12 competencies that cover 4 competency domains. These domains cover all essentials for practicing pharmacy profession including both drug-oriented and patient-oriented disciplines. A number of Key Elements are included in each competency, with a total of 42 key elements for all competencies. These key elements will reflect each competency in practice.

The competency domains are the followings:

Domain 1: Fundamental Knowledge

Domain 2: Professional and Ethical Practice

Domain 3: Pharmaceutical Care

Domain 4: Personal Practice

DOMAIN 1- FUNDAMENTAL KNOWLEDGE

1-1- COMPETENCY Integrate knowledge from basic and applied pharmaceutical and clinical sciences to standardize materials, formulate and manufacture products, and deliver population and patient-centered care.

KEY ELEMENTS

1-1-1- Demonstrate understanding of knowledge of pharmaceutical, biomedical, social, behavioral, administrative, and clinical sciences.

1-1-2- Utilize the proper pharmaceutical and medical terms, abbreviations and symbols in pharmacy practice.

1-1-3- Integrate knowledge from fundamental sciences to handle, identify, extract, design, prepare, analyze, and assure quality of synthetic/natural pharmaceutical materials/products.

1-1-4- Articulate knowledge from fundamental sciences to explain drugs' actions and evaluate their appropriateness, effectiveness, and safety in individuals and populations.

1-1-5- Retrieve information from fundamental sciences to solve therapeutic problems.

1-1-6- Utilize scientific literature, and collect and interpret information to enhance professional decision.

1-1-7- Identify and critically analyze newly emerging issues influencing pharmaceutical industry and patient health care.

DOMAIN 2: PROFESSIONAL AND ETHICAL PRACTICE

2-1- COMPETENCY Work collaboratively as a member of an inter-professional health care team to improve the quality of life of individuals and communities, and respect patients' rights.

KEY ELEMENTS:

2-1-1. Perform responsibilities and authorities in compliance with the legal and professional structure and role of all members of the health care professional team.

2-1-2. Adopt ethics of health care and pharmacy profession respecting patients' rights and valuing people diversity.

2-1-3. Recognize own personal and professional limitations and accept the conditions of referral to or guidance from other members of the health care team.

2-2- COMPETENCY Standardize pharmaceutical materials, formulate and manufacture pharmaceutical products, and participate in systems for dispensing, storage, and distribution of medicines.

KEY ELEMENTS:

2-2-1. Isolate, design, identify, synthesize, purify, analyze, and standardize synthetic/natural pharmaceutical materials.

2-2-2. Apply the basic requirements of quality management system in developing, manufacturing, analyzing, storing, and distributing pharmaceutical materials/ products considering various incompatibilities.

2-2-3. Recognize the principles of various tools and instruments, and select the proper techniques for synthesis and analysis of different materials and production of pharmaceuticals.

2-2-4. Adopt the principles of pharmaceutical calculations, biostatistical analysis, bioinformatics, pharmacokinetics, and bio-pharmaceutics and their applications in new drug delivery systems, dose modification, bioequivalence studies, and pharmacy practice.

2-3- COMPETENCY Handle and dispose biologicals and synthetic/natural pharmaceutical materials/products effectively and safely with respect to relevant laws and legislations.

KEY ELEMENTS:

2-3-1. Handle, identify, and dispose biologicals, synthetic/natural materials, biotechnology-based and radio-labeled products, and other materials/products used in pharmaceutical field.

2-3-2. Recognize and adopt ethical, legal, and safety guidelines for handling and disposal of biologicals, and pharmaceutical materials/products.

2-4- COMPETENCY Actively share professional decisions and proper actions to save patient's life in emergency situations including poisoning with various xenobiotics, and effectively work in forensic fields.

KEY ELEMENTS:

2-4-1- Ensure safe handling/use of poisons to avoid their harm to individuals and communities.

2-4-2- Demonstrate understanding of the first aid measures needed to save patient's life.

2-4-3- Take actions to solve any identified medicine-related and pharmaceutical care problems.

2-4-4- Assess toxicity profiles of different xenobiotics and detect poisons in biological specimens.

2-5- COMPETENCY Contribute in pharmaceutical research studies and clinical trials needed to authorize medicinal products.

KEY ELEMENTS:

2-5-1- Fulfill the requirements of the regulatory framework to authorize a medicinal product including quality, safety, and efficacy requirements.

2-5-2- Retrieve, interpret, and critically evaluate evidence-based information needed in pharmacy profession.

2-5-3- Contribute in planning and conducting research studies using appropriate methodologies.

2-6- COMPETENCY Perform pharmacoeconomic analysis and develop promotion, sales, marketing, and business administration skills.

KEY ELEMENTS:

2-6-1- Apply the principles of business administration and management to ensure rational use of financial and human resources.

2-6-2- Utilize the principles of drug promotion, sales, marketing, accounting, and pharmacoeconomic analysis.

DOMAIN 3: PHARMACEUTICAL CARE

3-1- COMPETENCY Apply the principles of body functions to participate in improving health care services using evidence-based data.

KEY ELEMENTS:

3-1-1- Apply the principles of body function and basis of genomics in health and disease states to manage different diseases.

3-1-2- Apply the principles of public health and pharmaceutical microbiology to select and assess proper methods of infection control.

3-1-3- Monitor and control microbial growth and carry out laboratory tests for identification of infections/diseases.

3-1-4- Relate etiology, epidemiology, pathophysiology, laboratory diagnosis, and clinical features of infections/diseases and their pharmacotherapeutic approaches.

3-2- COMPETENCY Provide counseling and education services to patients and communities about safe and rational use of medicines and medical devices.

KEY ELEMENTS:

3-2-1- Integrate the pharmacological properties of drugs including mechanisms of action, therapeutic uses, dosage, contra-indications, adverse drug reactions and drug interactions.

3-2-2- Apply the principles of clinical pharmacology and pharmacovigilance for the rational use of medicines and medical devices.

3-2-3- Provide evidence-based information about safe use of complementary medicine including phytotherapy, aromatherapy, and nutraceuticals.

3-2-4- Provide information about toxic profiles of drugs and other xenobiotics including sources, identification, symptoms, and management control.

3-2-5- Educate and counsel patients, other health care professionals, and communities about safe and proper use of medicines including OTC preparations and medical devices.

3-2-6- Maintain public awareness on social health hazards of drug misuse and abuse.

DOMAIN 4: PERSONAL PRACTICE

4-1- COMPETENCY: Express leadership, time management, critical thinking, problem solving, independent and team working, creativity and entrepreneurial skills.

KEY ELEMENTS:

4-1-1- Demonstrate responsibility for team performance and peer evaluation of other team members, and express time management skills.

4-1-2- Retrieve and critically analyze information, identify and solve problems, and work autonomously and effectively in a team.

4-1-3- Demonstrate creativity and apply entrepreneurial skills within a simulated entrepreneurial activity.

4-2- COMPETENCY Effectively communicate verbally, non-verbally and in writing with individuals and communities.

KEY ELEMENTS:

4-2-1- Demonstrate effective communication skills verbally, non-verbally, and in writing with professional health care team, patients, and communities.

4-2-2- Use contemporary technologies and media to demonstrate effective presentation skills.

4-3- COMPETENCY Express self-awareness and be a life-long learner for continuous professional improvement.

KEY ELEMENTS:

4-3-1- Perform self-assessment to enhance professional and personal competencies.

4-3-2- Practice independent learning needed for continuous professional development.

- separate matrix of elective courses (Senior)

Compulsory Courses (Name and code)		Academic Standards (Mention code only)											
		1.1	2.1	2.2	2.3	2.4	2.5	2.6	3.1	3.2	4.1	4.2	4.3
Advanced Microbiological Techniques	PMC E04				1		1		1		1		
Pharmacotherapeutics for Special Populations	PLC E 01								1	1	1		1
Geriatric Pharmacotherapy	PLC E 02								1	1	1		1
Molecular therapeutics	PLC E04						1		1				
Management of chronic illness	PNC E01	1	1				1		1		1	1	
Drug Desing	PCC E02			1						1			1
Analysis of food and flavours.	PCC E03				1				1	1	1		
Forensic analysis	PCC E04				1	1				1	1		
Supply Chain Management	PPC E04			1				1				1	
Addiction and Drug Abuse	PLC E03								1	1		1	
Total competencies		1	1	2	3	1	3	1	7	6	6	3	3

6. Teaching and Learning strategies/methods to achieve Program Outcomes:

1. Lectures
2. Tutorials
3. Laboratory Sessions
4. Cooperative Learning (Group Presentations/ Discussions)
5. Brain Storming
6. Think, Pair and Share
7. Peer Teaching
8. Simulation
9. Assignments
10. Case Studies
11. Site Visits
12. Field Projects
13. Graduation Projects
14. Simulation
15. Videos
16. Game based learning
17. Role play
18. Flipped Classrooms
19. Self-Learning
20. Problem Solving

21. Formative exam

7. Student Assessment strategies/methods to verify and ensure students' acquisition of Program Outcomes:

1. Course work (Practical exam, assignments, presentations, quizzes, projects, tutorial, discussion forms)
2. Mid Term exams
3. Final Written exams
4. Final Oral exams (Rubrics)
5. Booklet assessment
6. Video Call assessment

8. Program Key Performance Indicators (if any)
